# PREFACE

---

Currently I am pursuing Bachelor's Degree in Computer Application in Sai Nath University, Ranchi, Jharkhand. I had to join an one month summer internship when I completed my 4th semester. I preferred Inhouse internship to do my summer internship.

I choose this Internship because I wanted to learn new things and get some new experience. I wanted to improve my coding skills and develop new sets of skills in technical field.

In this internship report I will write my experiences during my internship period. The internship report contains an overview of the internship company and the activities, tasks and that I have done on during my internship. Writing this report, I also will describe and reflect my learning and observations that I got during my internship period.
