CONCLUSION

As an BCA Student of the Sai Nath University Ormanjhi, Ranchi I would like to say this internship program is an excellent opportunity for us to get the ground level and experience the things that we would have never gained through going straight into a job. I am grateful to the Sai Nath University for giving us this wonderful opportunity.

The main objective of the internship program/training is to provide an opportunity, identify, observe, and practice how web development is applicable in the real industry. It is not only to get experience on technical practices but also to observe management practices and to interact with fellow team members
